Democrats Start Rowan Organization

Rowan County Democrats, after a waiting period, got their campaign off the ground Monday evening with the appointment of campaign managers and formation of tentative plans for the November election.

Attorney James E. Clay was named Campaign Chairman with Russell Barker and Jackie Landreth as co-chairmen. James E. Clay will be selected later.

The organizational meeting at the courthouse was presided over by County Chairman Glenn W. Lane who predicted a Democratic sweep over the nation but confided the religious issue being injected in the vital race for the Presidency.

The campaign managers made these tentative plans— Organization of a Young Democratic Club. Full cooperation with the Rowan County Woman's Democratic Club, already under steam, with Mr. May Williams as president.

The Democrats admitted at Monday's gathering that so far the Republicans have the jump on us in Rowan County organization resulting from cancellation of Kennedy's speech in the "Postoffice".

The speech, in which Kennedy was to air his plans to take the distressed areas of the United States, including Rowan County, was called off because nearby airports were too small for the planes that transport the Presidential nominee and newsmen.

Conduct Funeral For Whitt Infant. The son of Mr. and Mrs. Edward Whitt was born dead Tuesday at Mary Childs Hospital in Mt. Vernon.

Remains were brought to Lane Funeral Home in Morehead and graveside services were held yesterday afternoon at Dehart cemetery.

Moore And Plank Purchase Business. A Morehead-business-turned-a-changed-ownership and its name Bay Moore and Sons, Inc. has purchased C and C Service Center at 1000 West Main Street and will thereafter operate the business.

The name is being changed to M. and P. Service Center.

Community, area and state leaders Tuesday launched "Program 60"—the plan of the Eastern Kentucky Development Committee to elevate economy of the region.

Several representatives from this county were in attendance at a gathering in the Doran Student House at Morehead to hear discussions on industry, agriculture and forestry, attracting tourists, community development, education, and available assistance from federal agencies.

Dr. Gove Wilson W. Wyatt expressed the theme of the 3-hour dinner conference when he said, "You have a program—a good program—what we need now is action."

"There is no substitute for a program like this," Wyatt continued. "But, here is no substitute for cooperation."

Wyatt, who is acting Governor this week since Gov. Bert Combs is out of the state, detailed that a meeting is to be held soon, in Kentucky, with representatives from all of the states in the Appalachian region.

Potential Is Here. "We must plan for the future... we must raise our standards to the level of other states and areas," Wyatt told the audience of 200. He said that no state offers more potential to industry than Kentucky.

Conch Child Is Dead At Birth

The infant son of Paul and Willie Dean Conch was dead at birth Sunday.

Gravestone rites were conducted Monday afternoon. Lane Funeral Home handled arrangements.

Gus Leyerle, Lodge Leader, Dies At 71

A widely known Morehead County editor, Gustav A. Leyerle, died at 7:15 p. m. Friday morning at Veterans Hospital in Huntington, W. Va.

Funeral services were held Sunday at 1 p. m. at Stueck's McElvrey Funeral Home by Rev. Tod Green, pastor of the Methodist Episcopal Church at Sharkey.

Mr. Leyerle was very active in Masonic circles during his Morehead life, and that organization conducted the graveside memorial rites.

He was a particularly active man, community leader and outspoken for any cause that he thought just. Mr. Leyerle was closely acquainted with most everyone in Morehead and Rowan County.

He was a native of Cleveland, O., son of the late Louis and Louise Leyerle. Mr. Leyerle was born Mar. 14, 1889 and served in the first World War.

On Sept. 4, 1919 he married Cora Lee Leitch, who survives. Two sisters and seven brothers preceded him in death.

Mr. Leyerle was particularly active in lodge affairs being a member of the American Legion, Morehead Post No. 1188 and served on the Ashland Elks Lodge No. 1540.

Brilliant of mind and affable by nature, he spent much study in Masonic and affiliated orders and work. Members of the Morehead lodge acted as casket bearers.

SOME TALK — NOT MUCH FILING

Ernest Binion, Frank Havens Unopposed In Board Races

Emmitt McClurg Files Against Fred Galvert

"Some times, folks talk about Board of Education races in Rowan County failed to materialize in all but one district with the filing deadline for candidates ending last Friday."

Frank Havens, retail merchant was the only person to file in district 4 composed of Clearfield precinct 7, Dry Creek, Wagoner and Coy Hill. He replaces a neighboring merchant Russell Barker, who did not seek reelection.

Ernest Binion, member, has no opposition in district 4, a composition of Farmers 2, Hillside, Cranston, Plank and Hayes.

Board of Education Chairman Fred Galvert will have an opponent as Emmitt McClurg, who operates a grain and feed store, also places his papers in the county clerk's office before Friday's deadline.

Ballots bearing Galvert's and McClurg's names will be issued in the November election. The only way that Havens or Galvert is seen to lose would be through a write-in vote which rarely happens.

Representative To Assist Vets. Roy M. Cain, contact representative of the Kentucky Disabled Ex-Servicemen's Board will be in the Kentucky Employment Office in Morehead Wednesday for the purpose of aiding and assisting veterans and their dependents in filing and prosecuting claims for benefits to which they may be entitled to from the Veterans Administration.

Dr. Adron Doran, Morehead, was one of 11 members appointed to serve under the constitution Revision Committee to study sections of the Kentucky Constitution pertaining to the legislature.

Judge Harry W. Duncan, chairman of the revision committee, said Harry King Lowman, speaker of the House of Representatives, was appointed chairman of the subcommittee.

Others on the subcommittee are Senator Alvin K. Spartz, president pro tem of the Senate; D. Hunter Green, Anchorage, Sheridan, James, Elizabethtown; Max C. Gifford, Lexington; Harriet Gault, Louisville; Harryburn S. Wilkins, Louisville; Al White, Covington; John Knox, Louisville; Dr. Adron Doran, Morehead; and Douglas Ford, Owensboro.

The subcommittee will recommend changes to the Constitution Revision Committee. To be submitted to delegates to the Constitutional Convention, if the convention should be approved at the Nov. 8 election, Judge Duncan said.

His speech at Louisville has been moved from Freedom Hall to the second floor of the Jefferson County Court House. He will move from Standford Field downtown for a speech at 4 p. m. He will speak at a 500-plate fund-raising dinner in the Exposition Wing at the county fairgrounds at 7 p. m.

The revised Kennedy schedule: 4:30 p. m.—Arrive Standford Field. 4:45 p. m.—Depart for downtown Louisville—parade and speaking. 5:15 p. m.—Arrive at courthouse for speech. 5:45 p. m.—Return to Standford Field. 7 p. m.—Depart for Fairgrounds and 500-plate fund-raising dinner. 9 p. m.—Return to Standford Field (will spend night).

Thursday, Oct. 4. 9:30 a. m.—Depart in car for Standford Field. 10 a. m.—Depart from Standford Field for Bowling Green. 10:45 a. m.—Arrive Bowling Green (will speak in Courthouse Square). 12 Noon—Depart Bowling Green. (Continued on Last Page, This Section.)

Ernest Binion re-elected without November opponent

Frank Havens assured of four year term

Cassidy and the Board have plans for at least two more consolidated buildings, possibly through a bond issue passed last year. Rowan County High on Flemingburg Road is already under construction and will be occupied next fall.

Upcoming members of the Board, each with two more years to serve on their terms, are Sam Litton, Jr. and Curt Lewis.

Kennedy Talk At Morehead Is Cancelled

Airport Inadequate To Land Planes Carrying Traveling Party. Revision of Senator John F. Kennedy's schedule in Kentucky Oct. 5th and 6th has been announced by Louis Cox, Kentucky Executive Headquarters.

Speeches at Mayfield and Morehead scheduled for Oct. 6th have been cancelled and the time and location for speeches at Louisville, Bowling Green, Lexington and Covington have been altered. Cox said the stops at Mayfield and Morehead were cancelled by Democratic National Headquarters because the airports were not large enough to handle the trio of four-engine DC-6's used by the Kennedy party.

The large planes carry Kennedy, his staff, and over 75 newspaper, radio and television reporters. Newsmen would not be able to accompany Kennedy to the city.

His speech at Louisville has been moved from Freedom Hall to the second floor of the Jefferson County Court House. He will move from Standford Field downtown for a speech at 4 p. m. He will speak at a 500-plate fund-raising dinner in the Exposition Wing at the county fairgrounds at 7 p. m.

The revised Kennedy schedule: 4:30 p. m.—Arrive Standford Field. 4:45 p. m.—Depart for downtown Louisville—parade and speaking. 5:15 p. m.—Arrive at courthouse for speech. 5:45 p. m.—Return to Standford Field. 7 p. m.—Depart for Fairgrounds and 500-plate fund-raising dinner. 9 p. m.—Return to Standford Field (will spend night).

Thursday, Oct. 4. 9:30 a. m.—Depart in car for Standford Field. 10 a. m.—Depart from Standford Field for Bowling Green. 10:45 a. m.—Arrive Bowling Green (will speak in Courthouse Square). 12 Noon—Depart Bowling Green. (Continued on Last Page, This Section.)

Fiscal Court, City, Board of Education Hit Hard By Wage Scale Set For Rowan

Surgery Is Fatal For Danny Litton

William Daniel Litton, seven year old son of William H. and Marie (Patterson) Litton, passed away last Wednesday in Ann Arbor, Mich., after an illness of three months.

Man Dies In Flaming Automobile

Death came to Alvin Gulley, native Rowan Countyman, Monday at Morehead, O. He was 41 years of age, being born at Morehead May 10, 1919, son of the late Harve and Flora (Bishop) Gulley.

The remains were brought to Lane Funeral Home at Morehead and services will be conducted this (Thursday) morning at 10 o'clock at the Pentecostal Church on Third Street.

Full details of the death are unavailable, except that Mr. Gulley was either driving or a passenger in an automobile that collided with another vehicle at Marion, Tenn. The car caught fire and the gasoline tank exploded.

He was burned beyond identification before the blaze was extinguished.

On Dec. 6, 1941 he married Tanya K. Gulley, who survives. They became the parents of six surviving children: Mrs. Donna Plank, Lebanon, Ind.; and Sandra, Freddie, Larry, Alvin DeWayne and Timmy, all at home in Marion.

He also leaves his parents and the following 11 brothers and sisters: Elbert Gulley and Mrs. Barbara (Kilgus) Gulley, O.; Avery Gulley, Marion, O.; Carl Gulley, Wilson Gulley and Anora Gulley, Miners, Ind.; Allen Gulley, Richmond, Ind.; and Harold Gulley, Mrs. Elvora Nichols, Mrs. Fay Brown and Mrs. Arlene Frisley, Morehead.

Marion officials reported the impact of the car crushed Mr. Gulley unconscious, saving him from the horrible realization of the spreading flames.

He was a veteran of World War I, and lived most of his life in Rowan County, but obtained employment in Indiana.

Rowan Wool Producers Get Incentive Pay

Wool growers of Rowan County now received a total of \$194.74 in incentive payments earned during the 1959 marketing year. Delmar Padgett, chairman of the county A.C. Committee said today that this completes the making of payments to the county's wool growers on wool and unborn lambs marketed during the year from April 1, 1959 through March 31, 1960.

On shorn wool, the rate of payment was \$42.20 for each \$100 received for wool marketed. For unborn lambs the rate was \$22.50 per hundredweight for the carcasses on Last Page, This Section.

Workers To Receive \$2.40 An Hour

It is an open secret that Rowan County workers will fork over about \$10,000 more for repair and renovation of the courthouse because of the rates set by the state as the 'prevailing wage scale' for the area.

W. G. Barringer, president of the Morehead Engineering Company, successful bidder at \$40,000 said: "Yes, we could have bid lower, except for the state that we must pay."

"One contractor, who asked that his name not be used, told this newspaper today: 'I didn't bid on the Morehead courthouse job because the wages that the Frankfort board set up are much too high in this area.'"

The state set out in this prospectus, and resulting contract, that the successful bidder must pay the following scale:

Table with 2 columns: Job Title and Per Hour Rate. Includes Carpenter foremen (\$3.22), Common labor (2.40), Skilled laborers (2.57), Plasterers (2.12), Plumbers (3.70), Roofers (2.55), Sheet metal workers (4.17), Truck drivers (2.95), Bricklayers (2.70), Brick masons (4.40), Bollemakers (3.75), Millwrights and pipe fitters (2.50), Cement masons (3.50), Glaziers (2.90), Lather foremen (3.25), Operating engineers (2.65), Engineers (Class B) (3.15), Engineers (Class C) (2.85), Supervisors (Owen 7.00), Keeth, Chairman of the Prevailing Wage Board, fixed the scale as listed above.

Affects School Buildings. This wage, unless changed, must be paid on all future public buildings contracted in Rowan County. It is far-reaching in that it includes all construction by Morehead, including the Fiscal Court, City of Morehead, Utility Plant Board, etc.

Cassidy said he had studied the "stymied" bid by the Board at the State capital and concluded, "This could be a real deterrent in future school buildings." The Rowan Board of Education had contracted to build at least two more consolidated school structures.

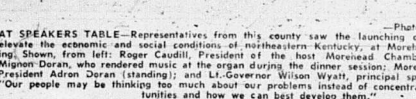

Lumber dealers contacted today were agreed that "\$2.40 an hour" would be a minimum wage as currently being paid in Rowan County. They thought the "entire scale" was "a little high."

In the meantime several Appeals to the Board have been made from other counties. Some are still pending. First of these came from Madisonville where the Board of Education had borrowed money for new school buildings. They agreed their entire program was "stymied" by the state, "about the same as set for Morehead, too high."

The "Prevailing Wage Scale" for public buildings was first passed in 1946 by the state legislature. In 1959 gubernatorial campaign Bert Combs, who was elected, made the ruling. In 1959 gubernatorial campaign Bert Combs, who was elected, made the ruling. In 1959 gubernatorial campaign Bert Combs, who was elected, made the ruling.

Brack PTA Lays Plans For Year. The Executive Committee of Breckinridge PTA Teachers Association made plans for the coming school year at a gathering of the Executive Committee Wednesday.

The first meeting of parents and teachers was scheduled Tuesday, Oct. 25 at 7 p. m. at Breckinridge Training School.

AT SPEAKERS TABLE.—Representatives from this county saw the launching of "Program 60" to elevate the economic and social conditions of northeastern Kentucky, at Morehead. From left: Roger Caudill, President of the 6th Morehead Chamber of Commerce; Mignon Doran, who rendered music at the program during the dinner meeting; Morehead State College student, Fred Adron Doran (standing); and Dr. Gove Wilson Wyatt, principal speaker. Wyatt said, "Our people may be thinking too much about our problems instead of concentrating on our opportunities and how we can best develop them."

—Photos by Norman Tate

Baptist Church To Have 75th Birthday

The day's observance will be climaxed with services at 7:30 p. m. with Dr. W. C. Boone, General Treasurer of Boone Association of Baptists in Kentucky, as the speaker.

Services will be conducted, which Rev. Baikes will deliver the message. Former Pastor Buell H. Kazerin is to almost every citizen in Rowan County, will be the speaker at 10:45 Sunday morning.

This will be followed by a business meeting and a social dinner at Morehead High cafeteria and a brief musical program in the church sanctuary at 2 p. m.

### Time Running Out To Build Good Waterways

By Billy K. Benson  
It will soon be too late to make good waterways. Getting a good stand of grass in waterways is a problem after the first of October. Oats seeded with fescue will help hold these late waterways. Melvin Eldridge and Ben Lown have just finished their waterways and several are scheduled for this week.  
Pond work goes on with four built last week. Raymond Ellington, Cecil Landreth, and Jason Trent all built ponds that will be fenced to exclude livestock and a drinking tank furnished. Roy Corbett's pond is a bulidate dug pond.  
Several flood damage projects have been checked and are ready to go. This work will be getting underway soon. Ideas like we did in this get some good work done under this program.

### Constitutional Revision Plan Is Explained

[This article explains one of the questions on the ballot at the November 8 general election. It concerns calling of a convention to cover limited revision of Kentucky's constitution.]

On November 8 Kentuckians will be asked to decide on a question that has twice been answered unfavorably during the past 20 years. Kentuckians will vote on the proposal to hold a limited constitutional convention, a proposal that was defeated in 1931 and 1949.  
The organizations supporting the proposal are working in a strictly non-partisan basis. The proposal is receiving strong support from the Republicans and Democratic organizations in the state and if the convention is approved, it will not run on a party ticket, as in other elections.  
It has been developed that more than an even chance of being passed in the 1951 election. The present position was again checked the proposal.

### Literary-Arts Club Announces Movie Schedule

By Dave Masters  
Once again the Literary Arts Club opened its members by showing a movie at Morehead State College. On Wednesday, Sept. 14, the Student Prince was shown. This movie was a little pretentious since it concerned a quite common happening of a prince studying in Heidelberg who woos a barmaid; learns how the other half lives, and assumes his princely duties in the process leaving the poor, talented, beautiful girl for a simple, everyday princess. Sans love, sans happiness ever after. Interwoven with music with Ann Blythe, the barmaid, and Marjorie Louie recorded voice in the person of Edmund Purdon.  
The 1954 constitutional convention, if called by the voters, will be limited to 12 subjects. The constitutional referendum, as it will appear on the ballot, is:

### This Week At... Morehead State College

By Ray Hornback (Public Relations Director)  
The Kentucky Fraternity Association held the first in a series of statewide seminars on the Morehead State College campus recently.  
Fifteen editors from the Morehead region were here for two days discussing how they can better their papers and provide a greater service to their readers. Tommy L. Preston, Publisher of the Cynthiana Democrat, returned home and wrote an editorial about the college which we feel the people of the Morehead region will be interested in reading. He said:

### Eagles Face Tennessee Tech In First OVC Tilt Saturday

By Karen Sue Hutchinson  
The football will fly fast and furious as the Morehead Eagles face the Golden Eagles of Tennessee Tech in a contest that promises to be the best of the year as far as the Morehead area is concerned, here this Saturday.  
The OVC Conference will meet in conference this Saturday. Tennessee Tech is expected to play all top honors this fall.  
With 22 returning back from last fall's 4-2-2 effort, the Golden Eagles could have its strongest football team since the 9-1 outfit of 1952.  
A look at the Tech line reveals excellent potential at the ends. Third-year first stringer Eugene Oliver will be back, as one of the finest defensive flankers in the Ohio Valley Conference. AT Line All-American Tommy Backler, who scored 30 passes for 322 yards in 1958, will be no hand to stop Tech's offensive strength.  
Bob Schmitt, who had to sit out last year because of a broken leg, is a first rate pass receiver who should provide extra help.

### Marriage Licenses

Marriage licenses issued during the past week by County Clerk Clark Ottie W. Flann:  
Sammy Thomas, 18, mechanic, Morehead and Betty Wallace, 16, Clearfield.  
Phillip R. Ellington, 18, contractor, and Irene Marie Jefferson, 17, both of Morehead.  
Wayne DeHart, 32, unemployed, Liberty and Zula Thornberry, 26, Morehead.  
Bobby Laughlin's and Guy Priddy's athletic units from professors and students alike and from Mrs. Adrian Doran, whose committee's efforts have furthered her husband's program at the first step illustrate achievements throughout the vast area of Morehead State.

### Morehead State College

Leadership plus teamwork is a pretty sound formula for success in any book. In many undertakings though, too often we discover an absence of one ingredient or an inability to compound both elements into effective solutions.  
It is refreshing to note that such is definitely not the case with Morehead State College. There, leadership and a willingness to work side by side has caused this Eastern Kentucky institution of higher learning to become, percentage-wise, the fastest growing college in the state.  
While reasons for Morehead's rapid pace in the field of education are basically the result of one man's efforts, nothing could have been accomplished had teamwork and the genuine desire to exercise it been lacking.  
Dr. Adron Doran has guided Morehead State College since 1955 when he came to the 65-student school from the State Dept. of Education. Prior to his arrival on campus a major building had been constructed during the past 20 years. Frankly, Morehead was a stuck-

**YOU'LL GET A LOT TO LIKE**—The widely acclaimed Ralph Marterie and the Mariboro Men will provide musical entertainment for the 1960 Morehead State College Homecoming Dance. Heralded as the nation's number one dance band, Marterie is known throughout American colleges and universities as "the man with the golden trumpet." This year's extravaganza will be held in the MSC Field House on October 8, 1960 at 9 p. m.

**Editor's Pen—**

Continued from Preceding Page—  
want to be fooled. And, the more we observe this changing world, the more we realize that it is not just the price and found it was almost 80 per cent higher than that quoted by the old reliable company we have done business with for years. Fellow business men—how many of you fell for that one? As we write the above we note a box of Christmas cards from a veteran's organization. We're supposed to send them \$2. In our files is a clipping about the very same veteran's organization, stating that over 99 per cent of their profits from a similar venture went into the pockets of the perpetrators of the scheme. Unfortunately, as anyone who has inspected K-Mart, the only store where there's a little you can't resist anyone of using the mail to defraud, this being the most over publicized, and the least effective, means on the books.  
The sale of ciphers is sky rocketing in Morehead. Barlow this week raised the price for harriss to \$12.25. Last time it was \$10.00. A lot of folks have turned to doing their own, including college students. Physicians report the legal epidemic of a virus, something like the flu, seems to be abating. This week's issue of the News records eight deaths—three were infants born at, or shortly after, childbirth, another an eight month old boy, and one was a seven year old lad—Elmo C. Kellner, MSC student, gave blood the last visit of the blood mobile. Last week his mother, Mrs. Lowell Kellner, Minford, O., posted a transmittal. The Red Cross chapter immediately had a post mailed to her hospital because her son had given at Morehead when you draw your conclusion about the "Prevailing Wage Scale" set for all public projects in Rowan County. Does the Highway Department, another state agency, pay this scale? Maybe it all depends on whose horse is stolen or is gored.

**Waterfield Not Opposed**  
Former Lt. Gov. Harry Lee Waterfield said this week he is not opposed to the proposed call for a limited constitutional convention.  
"I don't think a limited revision is the way to do it but I'll probably vote for it myself," he added during an interview with WHAS.  
The question's on the Nov. 8 election ballot.  
Waterfield said the limited revision is simply trying to pass 12 amendments instead of one by a convention.  
In a television appearance Sunday, Waterfield said changes in the Constitution also could be made by amendments.  
Opposing Waterfield over W.P. SD was James F. Gordon, a Madisonville attorney who is a leading proponent of the proposed convention to amend the 69-year-old document.

**Criticize Nixon As 'Two-Faced'**

Kees Johnson Democratic candidate for U. S. Senate, called attention this week to Vice President Nixon's proposed program of federal aid to education and said, "When there was a tie vote in the U. S. Senate on federal aid to education, it was Nixon who broke the tie, voted against it and killed the bill."  
The former governor of Kentucky continued: "Now he has decided to be for it. That is a characteristic of him and that is why he is best described as 'Revolving Richard.'"  
"Federal aid for education is badly needed," Johnson stated.  
"In spite of all that the states have done to improve the situation, we need immediately 132 classrooms in the nation and 154,000 more teachers. This need will be met when we elect a Democratic President and as a member of the Senate I shall help pass the legislation."

**Rowan Soil Bank Plan In Status Quo**

No sign is scheduled this fall of additional land or contracts under the Soil Bank Conservation Reserve, Rowan County Committee Chairman Delmar Padgett said today in response to inquiries from farmers regarding the status of the program.  
Padgett also set out that program contracts which expire in 1960 or later are no longer eligible to be extended for an additional period of years.  
"Under the Soil Bank Act enacted in May of 1956," Padgett explained, "the Secretary of Agriculture was authorized to enter into Conservation Reserve contracts with producers during the five year period, 1956-60." He continued:  
"The sign-up under the 1960 program was held last fall so that farmers would know in advance of the cropping season whether their land would be accepted into the Conservation Reserve. Since the authorization to enter into new contracts has not been extended beyond 1960, there will be no sign-up period this fall."  
Farmers should understand, however, that the existing contracts for 1960 and previous years will remain in effect and payments will continue to be made under them for the period of the contracts and in accordance with contract terms. The annual Department of Agriculture appropriation bills provide money, with which to meet obligations already on the books.  
There are 10 Conservation Reserve contracts in effect this year in Rowan County, involving a total acreage of 377 acres, Padgett said. Contract periods range from three to 10 years, and annual rental payments for 1960 amount to \$8,283.64.  
"Nationally, there are more than 300,000 Conservation Reserve contracts in effect in 1960, covering a total acreage of approximately 26 1/2 million acres in 48 states. The average rental payment is \$11.85 per acre, and the rental payments for 1960 will amount to about \$338 million."  
The law of the land is one thing and the judicial interpretation of it is another.  
The world has too many people who worship totem poles; if you know what we mean.

**Eagles Beat Maryville 25-0; Ogden Shines**

By Lee Mueller  
The flashy Eagles of Morehead State College polished off underdog Maryville 25-0 before a fair-sized crowd at Maryville last Saturday night.  
Scoring once in all four quarters, the Eagles were not to be denied. Using the strong right arm of quarterback Henry Schutte as a vault, the Morehead men again and again penetrated Maryville territory only to be stopped short.  
Morehead's first TD came midway in the first period when freshman halfback Bud Ogden punched over from the five yard marker. This was Ogden's first tally as an Eagle.  
After Morehead had taken a Maryville punt on their own 14, spotted halfback Ogden in the clear hit him with a beautiful toss and the fleet-footed scabbard set sail for his second TD on the longest touchdown play of the year, 86 yards! Halftime came with the MSC men leading 12-0.  
Came the second half, and Morehead once again began to march toward Maryville's goal line. Sparked by Schutte's passing and fullback Buford Crage's running, they drove to the Maryville six Paul West, sophomore halfback from Haleyville, Ala. then went off-tackle into the end zone for Morehead's third score of the evening, 18-0.  
The third quarter ended with the scoreboard showing Morehead leading, 18-0.  
The final quarter found Maryville finally bursting into Eagle land. They drove to the Eagle 22 before the Genymen finally halted their march. This was the deepest penetration made by the Tennessee lads all night.  
The closing seconds of the game found Maryville on their own 20. As the final gun was about to sound, Maryville quarterback Eddie Ward lofted a short pass which halfback Walt Shepard intercepted on the 25 and ran down the sidelines for Morehead's fourth and final score. Fullback Jim Hastings added the extra point.

**Nitrogen Is Necessary For High Yields**

Farmers who observe nitrogen deficiency in their corn crop this year can get a tip in fertilizing the same field next year, points out Russell K. Stivers, Purdue University Extension agronomist.  
Nitrogen deficiency in corn is characterized by a yellowing that starts at the tip of the leaves and moves along their middle. Bottom leaves turn yellow or fire first. The higher on the stalk the leaves are fired the greater the yield loss, he explains.  
Yellowing on the edges of corn leaves may be confused with nitrogen deficiency symptoms, Stivers says. This yellowing generally results from a potash deficiency. It appears as a scorching along the tips and edges of the lower corn leaves.  
Just because nitrogen deficiency isn't observed, doesn't mean that the crop is getting an adequate diet. One way to find out if the corn is under nourished is to establish test strips.  
Stivers suggests that twice the usual rate of broadcast nitrogen, phosphate and potash be applied to these strips. This can be done through spreader widths running the length of the field. Plow this under after application in the spring. Then harvest the same number of rows in each area and compare weights.  
Plant tissue tests also will aid in determining hidden hunger in corn.  
Cropped people are quick to suspect their individual faults.

**Egg Prices May Increase In Few Weeks**

Present indications are for better egg prices this fall and winter, the UK Extension Service Poultry Department says. Good handling of laying flocks will help realize good egg prices.  
Here are some things to do, if pullets are approaching egg-laying now, says J. E. Humphrey, specialist:  
Thoroughly clean and disinfect laying quarters, and allow at least 2 square feet of floor space per pullet, plus ample feed and water space. Put in 50 linear feet of feeders, for each 100 pullets and pure drinking water within 10 feet of the pullets at all times. Use good clean litter (corncobs, planer shavings, sawdust, peanut hulls, peat moss or cello pulp); two or three inches of litter is sufficient in hot weather but when cold weather comes the litter should be six inches in depth at the minimum.  
Open roosts are satisfactory for pullets if the birds can scratch enough under the roosts to keep droppings dry. Each pullet needs six inches of roosting space and there should be one nest for each four pullets. Many producers use an 8-inch nest for smaller size pullets, plus plenty of clean nesting material.  
Poultry houses should be wired so that one watt of illumination per four square feet of floor space is provided. Lights probably will not be needed until fall or early winter; a good rule of thumb is to give pullets 12 to 14 hours of light a day.  
It would be a nice world if everyone behaved like they acted in church.  
Make it a rule to stop lending people money. It's the worry about it that isn't worth it.

**PATRONIZE YOUR ADVERTISERS**

Announcing Chrysler Corporation's low-price compact for 1961!

### Miss Susie Caudill of Transylvania College spent the week end with her family.

### Visiting at the home of Mr. and Mrs. Monroe Wicker on Sunday were their son and family, Mr. and Mrs. Phil Wicker and son, John Marshall.

## James Morris Presents Hit Musical Here

James Morris, the gifted baritone, presented his gay and emotion stirring musical, "The Beautiful Dreamer," in the Button Auditorium at Morehead on Saturday, Sept. 17 at 8 p. m.

Morris was a member of the original cast of "My Fair Lady" and is rated one of the nation's most popular concert, musical comedy and TV stars. He was featured for twenty-six weeks on the NBC-TV network show, "The S. Royal Showcase" which has often been a guest performer on the Garroway Show, Today.

Morris appeared here between rehearsals of "The Beautiful Dreamer," in which he has the principal role. The musical, based upon the life of Stephen Foster, begins a tour of major cities in the "East" in November and will open on Broadway after the first week of the year.

Last year Morris was the star in "The Stephen Foster Story at Bardonia, Kentucky, which was a phenomenal success. His program here included an exhibit of three Southern paintings insured by Liberty's of London for \$300,000. The subjects were by John J. Galt, Robert R. Taylor, George Fanning and Sheldon Brown. Dunbar, W. V. Mr. and Mrs. Charles Dunbar and son of Howard, Nikki Horton, Sandy Hook and Mr. and Mrs. Jake Sibley, Morehead.

### Deed Transfers

Deeds recorded from Sept. 21 through Sept. 28 by County Clerk Ottis W. Elam:

Roy and Letha Plank to Jack Parker and W. J. Sample, land on Bull-Pole.

## Marterie To Play At Homecoming

By George Stevens  
The personally Ralph Marterie and his Marlboro orchestra will be the feature attraction at the annual Homecoming Dance that will be held in the Morehead State College cafeteria Oct. 8 at 9 p. m.

Heralded as the number one band in the nation by Billboard magazine, Marterie and the Marlboro Men have recorded eight discs that topped the million seller mark in their recording career.

Headed the list of the eight golden records are "Pretend," "Crazy Man, Crazy," "Sloki-an," and "Slosh Kabosh."

Marterie is known throughout the nation as the "man with the golden trumpet." In 1954 he conducted by Downbeat and the Cash Box magazines. Marterie covered recently as the number one favorite among colleges and universities in the United States. College and ballroom engagements.

Currently the Marlboro Men are blending the big band sound with his swinging trumpet in a tune called "Wampum."

Highlighting the evening's entertainment that culminates the 1960 Homecoming festivities will be the crowning of the Morehead State College Homecoming queen by President Adron Doran, Wanda Peace, the 1959 Homecoming lady of royalty, will reign over the festivities until the naming of the 1960 Homecoming queen.

## Basket Lunch

To be served at noon at the Morehead High School cafeteria. This will be followed by a brief program of music in the sanctuary of the church at 2:00 p. m.

### SUNDAY SCHOOL — 9:45 a. m.

### TRAINING SERVICE — 6:30 p. m.

Dr. W. C. Boone

— Rev. J. C. Raikes, Pastor

# Alumni Registration And Banquet Set

By Charles May

The 1960 Homecoming Day for Morehead State College has been scheduled for October 8 on the Morehead campus. The gala, annual festivities for students, alumni, and friends of the college will include a colorful parade, afternoon football game, Alumni Banquet, and Homecoming Dance.

The full day of activities will begin for Morehead alumni with registration at 8:00 a. m. in the Doran Student House, and the alumni of five colleges on the ground floor of Allie Young Hall.

Beauty and charm will be the key words for the pre-parade ceremonies to be held in front of the Student House at 9:00. The Homecoming Queen will be presented, having been selected from a beautiful bevy of upperclass girls by the student body. Miss Wynne Peace, reigning Queen of the 1959 Homecoming, will relinquish her crown in these ceremonies. Immediately following the Queen presentation, the parade will start in front of the Student House. The sponsored and constructed by the various classes and clubs on campus will be featured.

Highlighting the day's activities will be the Homecoming football game between the Morehead State College and West Virginia Tech. The game will be held in Jayne Memorial Stadium at 2:00. Preliminary and half-time activities have been planned also.

Later in the afternoon following the football game, the annual Alumni Banquet will be held in the College Cafeteria in the Doran Student House.

Clashing grandly the busy fall of activities will be the formal Homecoming Dance in the gymnasium of the Field House. "The Man Born For Horn," Ralph Martin, Doran Best Fall Winner and world-renowned band leader will be on hand with his latest arrangement of music to provide the music.

In addition to many other features being planned by the various departments and groups on campus, visitors and alumni will have the opportunity at 10:30 a. m. to view Morehead State College's two newly-completed building projects, the new men's dormitory and the married housing projects that are being used for the first time this fall.

# Beef Carcass Show Is Set At Owensboro

The first state-supported beef carcass evaluation show in the history of Kentucky will begin at Owensboro on October 8.

Commissioner of Agriculture Emerson (Doc) Beauchamp termed the carcass contest "an important forward step in the program of state-sponsored 4-H and FFA district beef shows and sales."

The Owensboro event will be conducted by the Field Packing Co., at Owensboro, the Chamber of Commerce, University of Kentucky, Agriculture Education Department and the Department of Agriculture.

M. J. Vinson who heads the show program for the Agriculture Department, said the carcass events "afford the youth a better opportunity to understand the true market value of beef animals and to see how their steers rate according to market desirability and value for production of high quality beef."

Carcasses will be evaluated on the proportion of lean to fat, the marbling of the carcass and the amount and uniformity of fat covering.

The Department allocates \$8,500 annually for premiums in the 4-H and FFA Beef Show program. The events are distributed to facilitate transportation and handling of entries.

Other shows are scheduled for Glasgow, September 27; Princeton, September 29; Murray, October 3; London, October 5; Louisville, October 12; Lexington, November 2, 3, and 4; and Hopkinsville, November 11.

# HALF-PAST TEEN

# Homecoming Queen To Be Elected Oct. 6

Eleven girls will be chosen in the primary election on Sept. 29 to run for Homecoming Queen. The Morehead State College 700 girls will be elected Thursday, Oct. 6, and the remaining ten girls will serve as attendants.

Eligible candidates are any single, full time sophomore, junior or senior female student.

A new system of voting will be introduced in this election. The polls will be divided into precincts. Each dorm will have a voting booth for residents of that dorm. The Student House will be used for village, community and town residents.

Students must present their I.D. cards to the election officer working at the polls in order to receive a ballot. The numbers 1, 2, 3, 4, 5 on the back of the card are for the purpose of indicating the sequence of elections. Number 1 will be punched on the top row to indicate the first vote, primary election. Number 1 on the bottom row will be punched out to indicate the first vote in the final election.

# Burley Coop Selects Seven As Directors

Seven directors re-elected to the board of the Burley Tobacco Growers Cooperative Association will begin new three-year terms at the association's annual meeting in Lexington Oct. 12.

The directors re-elected and their districts include:

Owen C. Rouse, Midway, eighth district; A. W. Ayres, Owen, ninth; John M. Berry, New Castle, president of the association, tenth; A. Threlkeld, Corinth, 11th; Joe McDaniel, Cynthiana, 12th; John T. White, Mt. Olivet, 13th; and Walter Sharp, Sr., Sharpshurg, 14th.

The directors were renominated at district conventions Sept. 19. Delegates to the district conventions were elected at county meetings Sept. 17.

Few people have sense enough to appreciate constructive criticism.

# West Virginia Tech Is Homecoming Foe

By Ray Allen

The Morehead Eagles are set to clash with the West Virginia Tech Golden Bears in Morehead's annual Homecoming classic.

The Eagles who downed the Georgetown Tigers 20-9 in this season's opener are expected to gain a tough Tech team which finished its 1959 gridiron season with a 7-1 record. Morehead fell victim to the West Virginians last season in a rugged 20-7 conflict. Morehead's only other previous encounter with the W. Va. Tech Golden Bears ended in a 15-14 deadlock.

A capacity crowd is expected to turn out for this classic occasion. The game will be highlighted by the half-time ceremonies when Morehead's next homecoming queen will be crowned for the 1960 football season.

Barry Cobb, Tech's new head football coach, is optimistic about the 1960 football season. Coach Cobb had seven returning seniors.

Two juniors and four sophomores to work with at the current campaign's opening. The work horses of the Golden Bear's line-up are veterans: quarterback Charles Goodman; fullbacks Forrest Mann and Paul Grygor; halfbacks Robert Young, Harold Moore, and Paul Resden; centers Rodney Jarrett and Duval Fugus; ends Darrell Moon, Gifford Basham and Larry Phillips; tackles Dana Helmick and Doug Lewis; and guard Dan Massey.

Seniors Rod Jarrett and Bob Young will captain the 1960 Tech team. Young was an All-Conference halfback last year.

Morehead dropped its last season's homecoming game to Middle Tennessee by a 27-0. But this year, statistically speaking, the Eagles have a much better chance for homecoming victory.

# Intramural Bowling Circuit Is Formed

The 1960-61 addition of the Morehead State College Intramural Bowling League has been organized for action on the Doran Student House alleys. This year's league is again under intramural sanction and the league members will receive intramural points for participation.

The outlook for this year's league is very good, as there are many new members taking part in the competition.

In an organization meeting on Wednesday, Sept. 21, 1960, in the Doran Student House, the league members set up the rules and regulations which will govern this year's league. All rules were set up according to American Bowling Congress standards and all league members concurred.

are composed of experienced bowlers, who are all looking to dethrone the defending champions.

As voted by the league members at the meeting on Wednesday, the league will award trophies to the teams placing first, second and third. Trophies will also be awarded to the persons having high average high game high series high game with handicap and high series with handicap.

The competition in this year's league should be keen and league and intramural officials have voiced their wishes for a sportsmanlike and successful season.

# Saturday's Market Report At Flemingsburg

Hogs: Receipts 409—Packers, \$17.40; sows, \$12.75; stock hogs, \$14 to \$15.30; sows and pigs, \$4 to \$9.00; shots, \$6.25 to \$12.

# Turn Down Assessment On Growers

Directors of the Burley Tobacco Growers Cooperative Association decided at their September meeting in Lexington that the association's tobacco export promotion program overseas could be re-established without the necessity of asking growers to contribute funds.

John M. Berry, New Castle, president of the association, said recent sales had improved the condition of the co-op's reserve to an extent sufficient to finance the "very valuable" overseas program. Berry said this meant that the association found it no longer necessary to consider asking growers to contribute to the burley promotion fund through what has been called a "check-off" system.

Under the original plan which had been proposed, burley growers in the eight state belt would have been asked to make a small contribution to the fund for burley promotion at the time they sold their crops during the 1960 marketing season.

"The contribution plan had received the support of burley growers who know the value of the export program," Berry said. "While we appreciate this interest of the grower in helping to build burley's markets, we find the association itself can now re-establish

its promotion program without the need of this additional help. The association's promotion program was established 10 years ago and was suspended two years ago because the co-op's receipts declined to the point where it became necessary to forgo it.

"The independent effort to create interest abroad in the use of burley for overseas cigarette blends was considered so important to the industry that we felt it must be continued even if we had to ask for a voluntary contribution from growers to support it," Berry said. "We are happy that our improved situation, because of recent sales and the excellent condition of our reserve, has permitted us to re-establish the program without the need of the so-called 'check-off' contribution."

The co-op president noted that burley exports were still gaining, while overseas orders for other types of tobacco had been declining.

"We think our program will keep exports of American burley on the increase," Berry said. "No market opportunity for our tobacco must be overlooked, and while we are working to promote exports, we are also concerned with preserving and developing domestic markets to their fullest."

In discussing the co-op's promotion program, Berry stressed that the association's purpose, since its beginning, has been to do everything possible to advance the interests of the burley industry as well as to administer the support loan program.

"The export program is one important phase of that purpose," Berry said.

**PROGRAM PLANNERS**—These are the three men who played the major roles in developing "Program 40": From left: Morehead President Adron Doran; John Whisman, Hazard; and B. F. Reed, Drift. Whisman is Executive Secretary of the Eastern Kentucky Regional Development Commission while Doran and Reed are members.

## Program

"(Continued From Page 1, This Section) J. Roger Caudill, president of the Morehead Chamber of Commerce presided while the welcome to the representatives from 12 counties was extended by Morehead Mayor William H. Layne and President Doran.

The Planning Commission announced this was the first of a series of such meetings in the area. The panels on development action in Northeastern Kentucky at Tuesday's meeting included: For Industry: Rufus Thomas, Community Relations Director, The Kentucky Power Co., Ashland; For Agriculture and Forestry: Henry C. Hagan, Head, Department of Agriculture, Morehead State College.

For Tourist Industries: Eben Henson, Producer and Director of the Pioneer Playhouse, Danville; For Community Development: Hobart Adams, Manager, Grayson REC and program chairman, Rural Development program; For Education: Dr. Lyman Ginger, Dean, College of Education, UK; Chairman of Governor's Commission on Education: Robert M.

Wyatt pointed out, in addition to the road program, the following recent steps taken by the state government and other agencies: appropriation of \$1 million more a week for public education; major advancement in vocational education, including Eastern Kentucky; attraction of many new industries and positive results by the state economic development program which he heads; wood utilization; most comprehensive geological survey and mapping of any state in the nation; creation of the Business Development Corporation; founding of the Industrial Development Bank Authority, providing loans for subdivisions, etc.; \$1 million more for agriculture research with expectations \$10 million additional will be put in this state program; many new nurses-including one in Morgan County; and research at Spindletop.

The Chief Executive probably hit the high note of his comments when he said: "Perhaps we are concentrating too much on the problems of Eastern Kentucky when we should concentrate on the opportunity that is before us."

# Gary North Heads '60 Student Council

The new Student Council of Morehead State College, elected at the end of the spring semester, will begin a year of leadership of the largest student body in the history of the college. Under the leadership of President Gary North the Council is planning a broad progressive program of student government.

President-elect Gary North, a senior from Paintsville, is a veteran council member, serving two years previously. A pre-law major, North was president of his junior class and is a member of the Campus Club. President North expects this to be a banner year for student government.

Vice President of the Council is Robert Fraley, a junior from Morehead. Fraley served as town-students representative on the Council last year. He is President of Kappa Mu and a member of the President's Council. Fraley, a business administration major, plans to become a CPA.

Barbara Anglin, Secretary elect, served on last year's Council as sophomore class representative. Barbara, a junior from Frankfort, is a commerce major. She is a member of the Cosmopolitan Club, Crown and Sceptre, BSU, Concert Choir, secretary of Kappa Mu and Assistant News Editor of the Trail Blazer.

Treasurer of the Student Council is Sarah Coleman, a sophomore from Morehead. Sara was a freshman class representative last year. She is a commerce major.

The Council historian is Bill Davidson, a senior from Middletown, Ohio. Davidson, a graduate of Compton Jr. College in California.

Attorney Joseph J. Leary, Frankfort, has been employed by some school districts and political subdivisions to contest the law, and the scale, as set by the Prevailing Wage Board. The Board was appointed by Gov. Combs.

The scale is for a 40 hour week with time-and-one-half over that and double time on holidays or Sundays.

Luckey, Manager, Cincinnati Field Office, U.S. Department of Commerce Introduction of Lieutenant Governor Wilson Wyatt, B. F. Reed, Chairman of the Eastern Kentucky Regional Development Commission.

**An Announcement By HENRY FORD II**  
**Of Importance To Every Buyer Of A 1961 Automobile...**

**"The Warranty On All 1961 Ford Motor Company Cars Is Being Extended To 12,000 Miles Or One Full Year."**

"The 1961 line of all Ford Motor Company passenger cars will bring to the American market the finest automobiles ever produced by this company."

"Every Ford, Falcon, Thunderbird, Mercury, Comet and Lincoln-Continental has been styled, designed, engineered and manufactured with three primary goals in mind: (1) finest quality; (2) greatest durability; (3) most reliable operation."

"So confident are we of the success of our efforts to achieve these goals that the written warranty on all 1961 Ford Motor Company cars is being extended to 12,000 miles or one full year, whichever comes first."

"No other American automobile carries a warranty like this. The previous Ford warranty, traditional in the industry, was for 4,000 miles or three months."

"We urge every prospective purchaser of a 1961 car to visit his Ford Motor Company dealer and learn all about the dealer's new 12,000-mile or one-full-year warranty."

**ARRIVAL DATES**

**SEPTEMBER 29:** The new Ford line. Sixteen all-new, full-size models with the classic Ford look, ranging from the value-leader Fairlanes to six new trend-setting Galaxies.

**OCTOBER 6:** The 1961 Falcons and Comets. America's most successful compact car combination for America's largest producer of compact cars.

**OCTOBER 6:** The new Mercury line, with completely new styling and wider range of models.

**NOVEMBER 3:** Lincoln-Continental for 1961, America's completely new, distinctive luxury car.

**NOVEMBER 10:** THUNDERBIRD, unmistakably new for 1961, yet unmistakably Thunderbird.

Morehead, Kentucky, Thursday Morning, September 29, 1960

## CHARITIES, CHURCHES GET IN THE ACT

### Legislator Tells How He Had To 'Buy' Votes To Get Elected

"Last year I was elected to the Kentucky Legislature after paying off citizens of my district with the money and whiskey they demanded for their votes.

"Many of the men who sit with me as legislators were elected in the same way.

With that introduction, a House member of the 1960 Kentucky General Assembly begins his account of the general election last November. Also elected were 193 in the October issue of Harper's magazine.

The lawmaker is not identified. The byline on the story reads "By a Kentucky Legislator."

Gov. Bert Combs, Lt. Gov. Wilson Wyatt and seven other Democratic candidates for statewide office won in the election last November. Also elected were 193 House members and half of the 36 senators.

#### Heid Not Typical

Given details of the story, Rep. Thomas L. Ray (D-Fairdale, House majority floor leader, told the Associated Press he did not question what had been written, but said the experience is not typical of Kentucky elections.

Said Ray:

"There may be a few isolated instances of which he writes in certain areas of the state. But on

the whole, elections in Kentucky are honest, and free of fraud."

"The House minority leader, Rep. Tom Sisk (R-Union, Somerset, elected not be contacted, but a Republican colleague, Rep. Marlow Cook, Louisville, agreed with Ray that the author's experience was not typical.

"Cook said he thought the author by not divulging his name and accepting election under such circumstances, is the biggest hypocrite I could possibly imagine. He is as guilty as the people he is attempting to expose.

"The anonymous legislator writes: 'This is nothing new in Kentucky but I think it is time that some politician, somewhere, tells the straight—and embarrassing—truth.'"

"This system of fraud at the county and precinct level is often practiced in this, and are common. It is the subject of the lead editorial in this issue.

"The story of how a candidate may be compelled to pay for votes in this country if he is to be elected.

"It may be that the political custom of my Kentucky county are very much more decadent and corrupt than those of the nation at large, but after talking frankly with other politicians, I strongly doubt it.

"Appalling Practices"

"I believe the appalling practices I am about to describe could be uncovered—with local modifications and many refinements, it be sure—in all of the states and in most of their precincts."

"In this month a Harper's editor's note said: "But there is considerable evidence that they happen most in the so-called Republican or Democratic—of low income and education, such as city slums and depressed rural communities."

"The fiction of buying votes by pretending to hire precinct workers has now become routine. The candidate or his political supporters enter what was the sun required or risk losing the household in question to the enemy.

Termed 'Blackmail'

"In a single precinct—candidate will sometimes find himself with a half dozen hired workers—generally women of disabled and unemployed men. This blackmail is sometimes brought by the same person—against several candidates so that money is extorted from two or three on the same slate.

"The 'work' consists of lining up members of the family and other relatives, and handing out 15 to 20 cents near the polling places or in the precinct."

"The author says he was subjected to 'numerous and ungrateful' pleas for cash and 'barely disguised threats of retaliation' in the voting booths unless it was paid.

"He tells of three women from the Parent-Teachers Association at Frankfort, who said that unless he helped them with their fundraising drive, they would publicly announce that he had refused to help the school." The author paid

Toured Area

"The candidate and his workers went over the area, precinct by precinct, deciding which people had to be paid to get their vote, according to the story.

"The money allotted each was placed in a suitably marked envelope and dispatched by a trusted courier to the designated precinct chairman or other workers," he writes. "When the last precinct had been dealt with, the stacks of cash had vanished and it was discovered that \$600 were still needed.

"To fill this gap one of the gentlemen took it upon himself to visit a quarry operator and assure him the local bigwigs would help him to get some profitable road gravel contracts after the first of the year if he will chip in and help out."

Describe Group

"The candidate says he arrived at his precinct by 4 p. m. and inquired of a group of men loitering some 50 yards from the polls, whether they had voted yet.

"They were a raffish bunch and one of them, a one-eyed villainous-looking soul, declared that they would be damned if we vote unless we get a little whiskey first. Another summed it up: 'no liquor, no votes'."

"A Democratic precinct worker got the whiskey and they voted, says the author, who concludes: "After midnight, when the Republican campaign manager had conceded the election, his opposite number came on the air and thanked the people of the state. He said the campaign had been hard fought, but clean, and in the very finest American tradition."

So far as the history of journalism is concerned, no editorial has ever reformed human nature.

The dollar usually tells the tale with most people.

## Marriage Does Make Differences

Richard Blair, brought into Quarterly Court at Lexington this week by his ex-wife on a peace warrant, made a fervent plea to the court to show she had no cause to fear he would harm her.

"I've never harmed a human being," he declared, "and I never intend to."

"Wait a minute," interrupted Asst. County Atty. Herbert D. Sledd. "About a year and a half ago didn't you slug her in the face and break her nose?"

"Yes," replied Blair, "but we were married then."

He was required to post a \$500 surety bond to keep the peace.

## Six Births And One Death Listed In Rowan Records

Six births and one death were recorded during the week by Mrs. Doris Jean Caudill, Registrar, Vital Statistics, Rowan County Dept. of Health:

- The births:
- Mr. and Mrs. Luther McClain, Rt. 1, Morehead, daughter, Emily Mims, Aug. 26
- Mr. and Mrs. Willie Johnson, Rt. 1, Morehead, daughter, Libby Kar, Aug. 29
- Mr. and Mrs. Cecil Ray Ferguson, Rt. 1, Morehead, son, Charles Eugene, Sept. 12
- Mr. and Mrs. Kenneth Ray Mangum, Rt. 3, Morehead, daughter, Rhonda, Sept. 6
- Mr. and Mrs. Kenneth Paul Baker, Elliottville, son, Collie John Paul, Sept. 9

## Federal Figures Show That 9.1 Percent Of People In Rowan Receive SS Checks

Senator John Sherman Cooper (R-KY) said this week that new Census and Social Security figures for Rowan County show that 9.1 percent of its population receives Old-Age, Survivors, and Disability Insurance benefits.

In Rowan County 1,155 persons now receive a total of \$53,623 each month, Cooper said. This means more than \$64,476 a year is received with Rowan County from the Federal insurance trust funds.

With larger benefits and more people becoming eligible, Social Security payments have greatly increased in recent years, Senator Cooper pointed out. For example, only eight years ago 223 persons in Rowan County were receiving a total of \$6,378 monthly. In other words, Rowan County is now receiving one-half million dollars more per year of Federal funds from the social security program alone than in December 1951.

Senator Cooper added, over 250

## Child Health Day Is Set In Kentucky

Governor Bert Combs has proclaimed October 3 as Child Health Day in Kentucky. He calls upon all Kentuckians to support wholeheartedly the persons and organizations committed to the furtherance of a year-round program designed to protect and develop the health of all children.

Dr. Helen B. Frazer, Director, Bureau of Maternal and Child Health of the State Department of Health received the proclamation from Governor Combs. She remarked that the work of her Bureau, one of several in the state concerned with the welfare of children shows gradually decreasing mortality rates in Kentucky, and improvement in the health status of most children.

The Famous Fat-Boy

"When You See Me, Come On In!"

## Announcing the 1961 Ford...

Beautifully proportioned to the

**CLASSIC FORD LOOK**

The 1961 Ford Galaxie Club Victoria—beautifully built to take care of people

## BEAUTIFULLY BUILT TO TAKE CARE OF ITSELF

The 1961 Ford introduces a whole new concept of what a car can do for you... and for itself!

It lubricates itself. New nylon bearings and a newly developed lubricant keep the '61 Ford freshly greased for 30,000 miles. It cleans its own oil. The 1961 Ford Full-Flow oil filter lets you go 4,000 miles between oil changes.

It adjusts its own brakes. A "mechanical brain" keeps brakes adjusted for the life of the lining.

Rust? Ford's body is specially processed to resist corrosion, even to galvanizing body panels beneath doors.

Ford takes care of itself on the turnpike, too, with a new 390-cu. in. Thunderbird Special V-8 that has all the punch you'll ever need. The 352 Thunderbird V-8 and 292 Thunderbird V-8 thrive on regular gas. And, for top economy, you can choose the '61 Mileage Maker Six.

This is the 1961 Ford... beautifully proportioned to the Classic Ford Look... beautifully built to take care of itself.

**HERE'S HOW THE '61 FORD TAKES CARE OF ITSELF.**

**LUBRICATES ITSELF.** You'll normally go 30,000 miles without a chassis lubrication.

**CLEANS ITS OWN OIL.** You'll go 4,000 miles between oil changes with Ford's Full-Flow oil filter.

**ADJUSTS ITS OWN BRAKES.** New Truck Size brakes adjust themselves automatically.

**GUARDS ITS OWN MUFFLER.** Ford mufflers are double-wrapped and aluminum—normally will last three times as long as ordinary mufflers.

**PROTECTS ITS OWN BODY.** All vital underbody parts are specially processed to resist rust and corrosion, even to galvanizing body panels beneath doors.

**TAKES CARE OF ITS OWN FINISH.** New Diamond Lustre Finish never needs wax.

### Child Council Is Formed For Kentucky

Parents and others interested in the welfare of retarded children have formed a statewide council at Frankfort.

The new Council for Mentally Retarded Children will foster programs in behalf of the children, especially those in Kentucky Training Center, operated by the State Department of Welfare.

The council also hopes to develop better public understanding of mental retardation and to coordinate activities of parents and other groups, both private and public.

At the council's organizational meeting, Commissioner Carlos Oakley of the State Department of Welfare and Director Charles Acord of the Division of Mental Retardation emphasized the Commonwealth's increased interest in care of the retarded.

They said this interest is indicated by Governor Bert Combs creating the division to work with mental retardation.

The council elected Mrs. John Holloman, Lexington, president. Other officers elected are: Richard Donelan, Cold Spring, vice president; Mrs. Edward P. Clute, Frazar Creek, secretary; Charles M. Connell, Louisville, treasurer.

Members of the board of directors are Mrs. Dorothy Sreenken, Covington; James Hall, Louisville; Mrs. Beatrice Garland, Maysfield; and Edward Griffith, Elkton.

### Questions And Answers About Social Security

By Wm. E. Scott  
Q. What changes are being made in Kentucky's tax structure besides the adoption of the sales tax?

A. Since Kentucky now has a sales tax, some of our other taxes have been lowered, some repealed, and others changed.

Q. Which taxes have been repealed?

A. All state occupational license taxes, with the exception of the cigarette wholesalers' license tax, were repealed.

Q. Does this mean that those who sell cigarettes, ice cream, etc., are no longer required to purchase a Kentucky license?

A. Yes, as far as the state is concerned, but this does not apply to any license required by a city. The state court of each county was given the authority to require licenses to sell ice cream, soft drinks, and amusement retailing to operate a restaurant, pool hall or bowling alley.

Q. Which taxes have been reduced?

A. Cigarette tax, bank deposit tax and the personal income tax.

Q. How much was the reduction in the cigarette tax?

A. It has been reduced from 2¢ to 2 1/2¢ per pack.

Q. How much was the reduction in the bank deposit tax?

A. The bank deposit tax was reduced from \$1.00 per \$1,000 deposit to one cent per \$1,000 deposit.

Q. How much was the reduction in personal income tax?

A. The personal income tax credits were increased from \$13 each to \$20 each and the income surtax was removed, both effective January 1, 1960. Thus a family of six with a \$5,500 annual income, if they use the standard deduction, would be required to pay \$47 income tax under our present rates. Under the new rates this same family using the same standard deduction would not be required to pay any Kentucky income tax.

Q. What taxes have been changed?

A. Prior to July 1, 1960, Kentucky had selected sales taxes on certain items. It was necessary to make adjustments when the sales tax became effective to avoid unfair taxation. For example, the sale of a new automobile in subject to Kentucky's 3% motor vehicle usage tax. The sale is therefore not subject to the sales tax. Utility charges were subject to a 3% utilities gross receipts tax. The utilities gross receipts tax was removed and all utility charges are subject to the sales tax.

### IKK'S DENOUNCEMENT

President Eisenhower has branded as "self-confessed traitors" the two youthful American code clerks who went over to the Soviet Union and denounced their homeland for what they said are war-provoking policies. The House Committee on Un-American Activities has been probing into the case, which could blossom into one of the biggest since the Communists in government exposed a decade ago.

### DETERRENT FIGHT

President Eisenhower has said that the nation must remain prepared to "face resolutely the dangers of any possible war" until powerful aggressors renounce their

### aims of world conquest.

In his prepared remarks the President said that until aggression was abandoned by international communism, the United States must continue its current level of spend-

### ing for defense.

He described the national security as "one of the central facts of our existence."

### Nature does her best to persuade mankind that this is a pleasant earth.

Almost anybody can justify what ever is done and believe it.

**Khrushchev Restricted But Clennie Wouldn't Know How To Get Out Of Manhattan**

By Clennie Holton

Just got in a report that they ain't enough heavy parlor in the county seat. When a woman wants to get her head combed and her hair twisted, she just can't find a beauty parlor to get this done without waiting for a spell. Just ain't enough beauty parlor.

Johnny Turner let me in on this shortage. He fetched his woman down to Beattyville real early so she could get her hair combed and twisted real early and then she could come back home and help him before his tobacco. It was real late before Johnny got his woman out of that moon head contraptions and headed to ward his tobacco patch and he thinks they spent too much time doing just what they did do.

Mr. and Johnny are both real pleased that our beauty parlor is anything put out artificially to them beauty shops. Nature just seems to be kind and generous with us. Although if Nature had been just a bit more generous with the hair, it might have helped some. Yet we consider ourselves pretty pretty good.

The radio has been a telling me that they don't aim to let Khrushchev get out'n Manhattan when he comes to New York. They're one thing about it. If I were to get into Manhattan, I couldn't get out of it if they told me I could. New York is just about the biggestest crowd ever was we reckon. At least it is the biggestest crowd I ever did see and I never did see the courteousness when I was there. Feller would starve to death a trying to find the Relief house in New York so that he could get his commodities. Anyway they ought to give Khrushchev all the privileges in heaven whether member of the U. N. This U. N. idea was mostly ours anyway. We should try to make our ideas work. Any way a forced smile will go farther than a kick in the pants when it comes to friendship.

Have you noticed how many times it has been said by leading candidates that the issue of religion ain't going to be introduced in the presidential campaign? Looks like the mere mention of religiousness, be it Jewish - that swelling of it. If they keep this kind of a going to let it out.

If you are in Beattyville and you ain't going to the People's Exchange Bank and look at that picture of the Ice County Army Reserve oficers and Noncommissioned officers you will quickly dispel that idea of yours that Russia is far ahead of us in national defense. You in Ice County can rest peacefully. They ain't nobody - a general - capturing us and so well backed militarily. In this picture, no doubt you will be gaining into the eyes of the future general of the United States Army. Too, you should bear in mind when looking at this picture, that many times the looks of a person is deceiving.

I see by the papers whereby any state worker can buy him a \$50.00 plate of grub stuff to eat. The fifty dollars will sort of help defray the costs of the election of Democratic officials. All governments and

**Lexington Water Company Says Consumers Pay More In Municipally Owned Systems**

Water users served by city-owned systems in Lexington's neighboring communities pay as much as 170 per cent more for their water than do the customers of the Lexington Water Co., company officials stated this week.

The statement was made on the basis of official data supplied by a survey of a survey of 21 municipally-owned water plants in the Blue Grass area and in other communities throughout Kentucky, the water company said.

It reported that of the 21 cities, all but one charge higher minimum rates than the Lexington Water Co. charges in one or all classes of service. The one exception is Frankfort, whose minimum rate is the same as Lexington's for customers outside the city limits, but 20 per cent lower for city customers. It is the minimum rate that is sometimes called "the working man's bill" since it generally applies to the small home user, the company pointed out.

The company pointed out that more than 4,000 Lexington families who use less than 2,000 gallons of water a month pay the company's minimum rate of \$1.25. On this same basis, water users in Georgetown pay 20 per cent more, in Nicholasville, 84 per cent more, in Paris, 80 per cent more, in Richwood, 48 per cent more, and in Winchester, 176 per cent more.

"The minimum monthly rates of city-owned systems averages \$1.74, 20 per cent higher than the \$1.25 minimum in Lexington," company officials stated.

Commenting Louisville, one of the cities covered in the survey, the company noted parenthetically that

**Nixon Explains Farm Program In Iowa Speech**

Vice President Richard M. Nixon beckoned to the farm vote in Iowa with a plan to trim the budget surplus of agricultural products down to manageable size in four years.

Nixon said the plan should start with a plan to trim the budget surplus of agricultural products down to manageable size in four years.

The Republican presidential nominee laid down his program in the first farm speech of his campaign to about 25,000 people gathered on the rolling fertile acres of a pair of Iowa farms. The scene was the state plowing

**Government Programs Hit By Bureau**

By C. K. Fields

(Kentucky Farm Bureau Fed.)

Any government program of managed change for agriculture would sound the death knell for the family farm, according to Charles B. Shuman, president of the American Farm Bureau. Speaking recently in Denver, the Farm Bureau president explained that the use of the power of the federal government to force farmers and others to follow plans developed by a special planning board established in some "adjustment center" or bureau.

Said Shuman: "Much of agriculture's present trouble is due to misuse government programs that have caused farmers to produce or avoid needed changes in production." Now, after 30 years of failure, those who favor a government-planned agriculture have adopted a new tactic.

"As a substitute for fixed prices, acreage allotments, income payments, and multiple price schemes, they now propose a new 'supply control' system. Under this plan, all farmers would be licensed and assigned certificates for the quantity of each farm product that they were permitted to produce. No farmer's product would be exported. Certificates could be bought and sold - and, of course, reduced by the planning boards. These absolute controls would fit well into the plans of the 'managed change' cult which expects to be the new 'brain trust' in agriculture."

"If we wish to learn about managed change," continued Shuman, "we should study the Russian 5-year plan system."

Shuman said there is absolutely no evidence to indicate that Americans have as yet developed the capacity to plan by committee more wisely than by the combined judgment of millions of free persons making their decisions on the basis of what is best for each individual and seeking to fulfill one of life's great purposes - self improvement.

"We must face the facts," he said. "The production of our present farm surpluses was not stimulated by real market demand at home or abroad. The surpluses resulted from the continuation of unrealistic government price support programs."

Brings electricity to 730 rural families in Fleming, Meade, Robertson, Nicholas, Lewis, Bracken, Bath and Rowan counties.

**FLEMING-MASON RURAL ELECTRIC COOP**

### Zoning Near Airports Gets State Scrutiny

The State is tightening control of zoning in areas near airports to protect funds it has allocated to their development.

About one million dollars is being contributed by the State this year and next toward airport development, with local communities supplying about that amount and the federal government 1 1/2 million. Aeronautics Commissioner Philip L. Swift points out.

"An airport costing several hundred thousand dollars could be ruined by erection near it of a smokestack, building or other tall structure," Swift said.

To prevent this, he added, the new Kentucky Airport Zoning Commission is adopting regulations placing tighter control on zoning in airport areas.

The commission was authorized by the 1960 General Assembly after recommendations by Swift.

One member is appointed by the Governor from each of Kentucky's eight congressional districts. Members are:

1st District, Smith Broadbent, Cadiz; 2nd, Dr. L. K. Casey, Bowling Green; 3rd, Foster Jones, Louisville; 4th, Phil Wells, Glasgow; 5th, John Hedrick, Covington; 6th, Stanley Gaskill, Lexington; 7th, Charles Garrett, Ashland; and 8th, Jack Colson, Middlesboro.

### Medical Aid Plan For Aged Detailed

The recently adjourned session of the 86th Congress passed some significant amendments to the Social Security Act. One of these amendments now offers approximately 12 million aged people a promise of some help in paying their medical bills. A special session of the Kentucky Legislature Friday appropriated funds to supplement the state's portion.

Briefly what this newly passed amendment to the Social Security Act means is that the Federal government will offer medical help to the needy aged in every state that puts up money of its own to match the Federal contributions. This medical plan was worked out in Congress as a compromise to one of the hot political issues of the year.

In effect, this new program will be simply an addition to the existing Federal-State welfare system. If all the 50 states adopt their own programs and put up money to participate about 12 1/2 million people, 65 and over, will be eligible for these new benefits.

The 24-million people now on "old-age assistance" rolls will qualify automatically to meet federal requirements for participation. However, whether or not these people will receive additional bene-

fits under the new program will be determined by the extent to which the individual states through their own legislative process decide to participate in this new grant-in-aid medical program. States that already pay some medical bills for old people on relief are counted on to expand and liberalize their plans to take advantage of these new Federal grants. States without such plans are expected to adopt medical care programs.

For those not on public relief but whose medical bills exceed their ability to pay, much will depend on the programs adopted by the individual states. The system approved by the Congress leaves the states a free hand in deciding how "hard up" its aged residents will have to be in order to qualify for medical aid. Each state will write its own regulations and its own "standards of need."

Another big decision by the states will be to decide as to the kinds of medical expenses that will qualify for Federal-State aid. Congress put no limits on this phase of the program.

Cost of this new and expanded health program is put roughly at half a billion dollars a year in addition to what is already being spent on medical aid to those on relief. About two-thirds will be paid by the Federal government, one-third by state and local governments. These costs could be far higher though once the states get their new programs under way.

Congress set no limit on medical aid to the large group of aged people with low incomes who are not on relief. The Federal government will put up 50% to 80% of whatever aid the states decide to extend to these aged needy.

Certainly efforts will be made in succeeding Congresses to expand and liberalize this program. We shall be hearing a great deal about the controversial issues in medical aid during the coming election campaigns. You may hear about this too when the new Congress gets down to business next January.

A pretty girl makes a lot of men feel younger.

**Groat Determined For Series Play**

Injured Dick Groat of the Pittsburgh Pirates said Sunday he's determined to be in at shortstop during the World Series "even if they have to shoot me full of novocaine."

The Buc captain, idled since Sept. 6 with a fractured vertebra, told newsmen he wants to play in the Series more than anything else in the world.

He said he has no pain in the wrist, but his forearm muscles are sore.

### Tree Farm System In State Grows

Kentucky's woodland owners will top the 100,000-acre mark in the new Tree Farm System when 27 new Tree Farms are formally dedicated in a ceremony near Hampton Friday.

The announcement was made by Harold C. Moser, Louisville wood-firm executive and chairman of the Kentucky Tree Farm Committee.

"These woodland owners have demonstrated their interest in forest conservation by managing their taxpaying forests for repeated timber crops and with full regard for future growth," said Moser.

The new tree farmers join with 96 previously recognized Kentucky Tree Farm owners to serve as a nucleus for an enlarged timber economy in the state. Average size of the 27 new Tree Farms is more than 1,425 acres but they range in size from the plant U. S. Steel Tree Farm in Harlan and Letcher counties to the 12-acre tree farm of Miss Reva Terrell in Wolfe County.

The new Tree Farm program in Kentucky is sponsored by the Kentucky Forest Industries Committee with the cooperation of the State Division of Forestry. It is a part of the industry-sponsored nationwide American Tree Farm System which has recognized the owners of 18,227 private woodlands covering 53,254,798 acres for their ability to use wise woodland management practices.

The public is invited to attend the ceremony which will be held on the 280-acre Riley Harris Tree Farm 13 miles east of Campton on Kentucky Route 1010, Moser said.

### Dependent Child Aid Raised In Rowan County

Kentucky's public assistance program, rejuvenated by new sales tax appropriations and matching federal funds, has provided for the second straight month Rowan County's dependent children with monthly payments in excess of the 1959 levels.

According to Commissioner of Economic Security W. M. Ferguson, last month's average payments per family were \$84.13, an increase of \$12.87 over August, 1959. The total amount paid to the county's dependent children reached a new high of \$7,488.

Commissioner Ferguson added that funds exceeded 1959 limits all over the state. He said the new totals have put Kentucky in the lead over all southeastern states in the amount of public assistance given to indigent recipients.

### Kentucky Radiation Control Is Studied

Kentucky's proposed radiation control plan is in the hands of the U. S. Atomic Energy Commission for examination, having been prepared and submitted with what AEC Commissioner Loren K. Olson called "almost incredible" speed.

Olson came to Frankfort to receive the Commonwealth's proposal from Attorney General John B. Breckinridge, chairman of Governor Combs' Task Force on Atomic Energy. Kentucky was the first state to submit a radiation control plan, a necessary first step toward gaining authority to regulate and license the possession and use of specified radioactive materials by industry.

The Air Force has been charged by the Senate Small Business Committee with waste and inefficiency. The committee cited the awarding of a defense subcontract to a company inexperienced in the job to be done. While the cost of the contract under investigation was relatively small—about \$2,700,000—the committee cited it as a "case history" of inefficiency in defense procurement.

**LODGE PICKED**

Vice President Nixon says that if elected President he would assign his running mate, Henry Cabot Lodge, with the "primary responsibility" for negotiating a settlement of the Arab-Israeli problem. Mr. Nixon has pledged to give Middle East problems the highest priority if elected.

# HERE! CHEVY TRUCKS

— WITH WORK-PROVED INDEPENDENT FRONT SUSPENSION! —

*Chevy's '61 fleet swings in with a ready-made reputation as the trucks that are worth more because they work more. . . the latest additions of the haulers that scrapped the I-beam axle and proved the important advantages of independent front suspension!*

You'll find new models for '61—long-wheelbase 4-wheel drive units—and thoughtful refinements throughout the line. But the big news for '61 is nulled-down proof (based on owner reports) that Chevy's torsion-spring design is the best thing that's happened to trucks in decades!

With Chevy's independent front suspension and Shur-Bilt design, you cruise over trails where other trucks creep. You feel the difference in less wheel fight and vibration. You can see why drivers are happier, why loads are better protected and why the truck itself will stand up to thousands of miles of work. That goes for any size Chevy, too—pickups, tilt cabs, tandems, all cabs.

Check the latest specs with your Chevrolet dealer: capacity, power teams, options. Then, by all means, drive a '61. Once around the block and you'll never be satisfied with a front axle truck again!

**WORTH MORE BECAUSE THEY WORK MORE!**
