FINE FINE MUSIC by the Police Band at the Roxy last night. A concert of ten numbers rendered by a well trained band under the direction of Bandmaster Stening won the applause of an appreciative audience. "High Life" the dance number so popular with the Africans, proved an interesting diversion. "A Hunting Scene" and "The Whistler and His Dog" raised echoes of the Goldman Band playing on the Mall in Central Park, New York, and that is good music.

SUDDETH AND FLORIO, with perfect days at bat led Slater's Boys to an 8-6 victory over the Falcons, who accumulated 13 walks but not at the right times. Bush Leaguers shut out the Parker House Boys 5-0 as Grant allowed only 2 hits.

ITALY: The British Eighth Army advanced another four miles and captured two more towns at the southern end of the Sangro river. Large fires and heavy explosions in the rear of the German lines indicate that the enemy possibly plans to evacuate several more towns in this area. Bad weather is hampering Allied operations all along the front, with swollen rivers barring the advance of the American Fifth Army under General Clark. The Germans claim that the island of Samos in the Dodecanese was taken by them yesterday morning.

RUSSIA: Three successive powerful German smashes at the Russian Line in the Korostyshew area were turned back by point blank Soviet artillery fire. At least thirty-eight tanks and 1000 Nazis were wiped out. In the Dnieper Bend region, Soviet troops have made considerable headway in two separate thrusts. Further progress was made in White Russia, in the area west of Rechitsa, and the Red circle around Gomel continues to tighten.

UNITED STATES: Two tankers collided early Sunday off the coast of Delaware, and an undetermined number of men were lost. One of the ships caught fire, but the other was able to make port under its own power. Thirty-nine survivors have reached land so far. From Kansas City comes the news that Veterans of Foreign Wars National Council recommends that the thirteen billion dollars which the War Department recently pared from its budget should be earmarked for mustering out pay, pensions and compensations for veterans and dependents, and to help discharged servicemen find jobs. Washington: Chief of Farm Security Administration Frank Hancock says he would be interested in seeing Congress take necessary steps to give returning soldiers of World War II preference on farm tenant purchase loans. At Fort Byron, Ill., a town of twelve hundred persons, a new $145,000 water and sewer system has just been completed, but now War Production Board refuses to allow residents to purchase faucets, bathtubs, toilets, and other plumbing fixtures necessary for its use.

Today we present to you avid readers of this fine, fine publication a "rare bird" a guest of the guest editor, Pfc. Dale E. Schultz of Gettysburg, Penna. A suggestion that he appear as an Inquiring Reporter brought forth what follows.- Cpl. Haddox, Svy. Guest Editor.

Asking what he attributed his success as an horticulturalist (have you seen the roses at the Serv Sq?) Major Nolan informed us that he had always helped Mrs. Nolan plan "next years" garden.

Inquiry was made of "Squint" Kvenild as to how he had enjoyed the Thanksgiving Dinner and he stated: "Quote. "Turkey is OK but give me a goose for Christmas everytime!" Unquote.

In answering a question concerning the Bush Boys "Fat Boy" Warren believes we will soon be calling him "Blondie" what with all the worries brought about by the loss of so many ace players.

And from "Bama" Mathews it was learned that his letters from "Sugar Lump" can not be so sweet as the name might imply. Sugar is still rationed you know.

Pfc. Schultz, G. of O. Ed.

Following is a list of the Mess-Personnel you may thank for preparing your Thanksgiving Dinner: T/Sgt. Watson, S/Sgt. Lark, S/Sgt. Gaskill, Sgt. Rothers, CpS. Sexsmith, Vallelunga and Smith; Pfc. Corbett, Kloth and Loshaw and Pvt. Lane.

WELL, T'OTHER FELLAS HAVE MONKEYS, DON'T THEY?

SPORTS: The Remnants were "shoved" out of the lead and into a tie with the Bush Leaguers as the Jeeps scored 3 runs in the last inning to win 4 to 3. Hits by Blaser, Brewer and Grosskind paced the attack. Mon in White turned back the Bush Boys 12 to 5. Schaffman with a homer, double and single starred for the winners. Kight and Zabukovec had 2 hits each for the BBs.

**ENGLAND:** Another big raid was made on Berlin by RAF bombers last night. The force of raiding planes was very large, and results of the bombing were described as "most effective". The Germans admitted the raid at one o'clock this morning, terming it "another terror raid". The shattered German capital has been bombed every night this week. Other RAF bombers hit Stuttgart, starting large fires at the railroad center. Intruders struck at enemy airfields in France, and other planes laid mines in enemy held waters. These raids cost the RAF 32 bombers.....The greatest American air attack of the war was conducted last night, when Forts and Liberators plastered Bremen. Their objective was the dock area and ship-building yards, where most of the German submarines are constructed. 20 enemy planes were knocked down by the big ships, while accompanying Lightnings and Thunderbolts got 36 more. Our losses were 99 planes......hundreds of tons of explosives were also rained on Frankfurt, important rail and industrial center.....This raid was made by RAF Mosquitoes.....These three big raids were followed with further daylight attacks by large formations of American planes.....

**RUSSIA:** After having captured Gomel, former enemy held fortress, Russian forces advanced north and west of the city and tore gaps in the enemy lines of communication. The Reds have reached the Dnieper River between Zhlobin and Mogilev, north of Gomel, and have crossed the lower reaches of the Berezina River.

**PACIFIC:** In New Guinea, the Aussies have finally taken the town of Sattelberg, where the Japs have been holding out so stubbornly. Leaving behind vast quantities of equipment, the Japs are retreating north along the Huon Peninsula.....Americans on Bougainville have extended their beachhead, so that they now hold an area of about 6 square miles.....American subs sank 7 more Jap freighters, a plane transport, and a tanker.....

**UNITED STATES:** At Washington, Andrew J. May, Chairman of House Military Affairs Committee, announced he will submit a bill to grant vets of this war from $100 to $300 in war service pay. United press reports that the bill was given to May earlier this week by the War Department. The measure calls for the payment of $300 to men with 6 months or more service, and lesser amounts for shorter periods. All cases of honorable discharge would be covered. Another proposal was introduced by Senators Wagner of New York and Clark of Missouri, which they say embodies President Roosevelt's recommendations on unemployment and social security protection for service people. Their plan suggests payments for unemployed vets up to 52 weeks beginning at $15 a week for single men, plus $5 additional for a wife and $2.50 for each dependent. Also included would be old age and survivor insurance credits.....Pratt and Whitney Aircraft Division of United Aircraft have revealed a new supercharger that uses only a jet of water to supply emergency power. Up until now a military secret, it has proved its effectiveness both in the Pacific and over Berlin. The new device injects water and adds a surge of speed in the split seconds when it is needed in combat.....

**SPORTS:** Texas' victory over Texas A and M automatically made the Longhorns the host team in the Cotton Bowl. Their opponent has not yet been named. After the Thanksgiving Day battle, the Aggies announced acceptance of the Orange Bowl bid. They will play L.S.U.....
