Gentlemen:

Subject: Administration Building--
Morehead Normal School.

We have today received a copy of the letter which you forwarded Prof. Button, dated November 14. No doubt you received the elevations which we forwarded to you shortly after this letter was written.

We believe that it would be best for you to complete this work with the layout as suggested, except correcting the location of the new building.

Prof. Button has requested that we take this matter up with you directly. At the present time it is almost impossible for anyone on the Board to make suggestions, as present conditions do not warrant same.

They have also requested that when you make the layout finally that you include on same the sewerage and drainage.

Prof. Button stated to the writer that this was understood with you originally.

We would appreciate a copy of the drawings or letters which are sent to Morehead.

Any other information we can give you, kindly let us know.

Yours very truly,

JOSEPH & JOSEPH.
